Leaflet Content and Policy B.

REFERENCES A. SGAA-11504, 4 September 1954; SGAA-10648, 1 July 1954

1. With regard to your intention to increase in the leaflets messages urging resistance action on the part of the Albanian populace, a new and up-to-date PW policy guidance will be forwarded in the near future. In the meanwhile, although it is apparent from reference A that the field is well aware of the risks involved in suggesting sabotage or other resistance action, we do wish to urge caution in the type of instructions which are issued. Such instructions should be so general or applicable in so many places that no action taken could be directly traced to the instructions. In this connection, our reply to the field's request for approval of a leaflet on pipeline sabotage will be forthcoming as soon as we have had an opportunity to discuss the matter with Pauline A. Quinipp.

2. With respect to paragraph 4 of reference A., we see no harm in requesting comments and criticism on leaflets from selected Albanian refugees. However, we do suggest that only old leaflets and CHITUNE be used. We do not feel that it would be wise to show such people the current leaflets, thus leading to the conclusion that they are produced in Greece by the persons interviewing the refugees.
